

## DRUM DRYER

- CT Drum Dryer with an advanced design
- Suitable for snack grinding, flaking, and drying
- The machine consists of nip adjusters.
- Safety functions
- Long service life

### FEATURES

- CT Drum Dryer consists of two rolls made of steel with hard chrome plating.
- Roll speed is adjustable and shown in digital.
- The machine is installed with an electrical control panel which consists of main switch, roll speed adjusting potentiometer, roll forward switch, roll stop switch, roll reverse switch, and emergency stop switch.
- The rolls can be separately heated by electric heaters up to 150°C via PID temperature controllers.
- The machine consists of two spur gears to transmit the driving power from one roll to another roll.

### SAFETY

Safety is a fundamental feature of this machine. Safety knee stopping bars mounting under the rolls and safety hand stops mounting above the rolls in both front and back sides of machine can be reached easily in the case of emergency stop. The machine also has others safety equipments, such as emergency stop switch, overload cut-out equipment, and roll reverse-direction switch.

MODEL	DD-D6L12-HT-INV	DD-D8L18-HT-INV
Roll Diameter (inch)	6	8
Roll Length (inch)	12	18
Adjustable Roll Gap (mm)	0.2 – 3	0.3 – 4
Adjustable Roll Speed (rpm)	1 – 15	1 – 10
Max. Roll Temperature (°C)	200 PID Digital Setting and Indicating Temperature Controllers	
Drive Motor (kW)	0.75 with Overload Protection	0.75 with Overload Protection
Electrical Supply	3 phase / 380 – 440 V / 50 – 60 Hz
